EDUCATION

- University of California, Davis** Sep 2017-Present
Davis, California, USA
Master of Science/Doctor of Philosophy in Computer Science (GPA: 3.97/4.0)
- National Institute of Technology, Tiruchirappalli** Jul 2010-Aug 2014
Tiruchirappalli, Tamil Nadu, India
Bachelor of Technology in Production Engineering (GPA: 3.2/4.0)
-

RESEARCH INTERESTS

- Authentication and Anti-fraud systems.
 - Privacy enhancing technologies.
 - Hardware based fingerprinting.
-

RELEVANT EXPERIENCE

- Graduate Student Researcher, University of California, Davis** Sep 2018-Present
Davis, California, USA
Applied ML and Systems research focusing on combating fraud and enhancing user-privacy.
- Designed and implemented ML based security challenges on mobile to combat card-not-present credit card fraud.
 - Designed and implemented a privacy enhancing system for mobile cameras to protect user privacy from untrusted apps.
 - Currently working on employing the Rowhammer exploit to extract stable device fingerprints from the DRAM.
 - Currently working on measuring the impact of anti-tracking technologies on bot detection.
- ML Research Intern, Blue Hexagon Inc** Jun 2019-Sep 2019
Sunnyvale, California, USA
Research on adversarial techniques to mutate malware to evade antivirus engines
- Identified mutations to Windows Portable Executables (PE files) that preserve their functionality.
 - Developed feature vector based GAN to mutate malicious PE files based on identified mutations to evade detection by commercial Antivirus (AV) engines.
- Research Collaborator, University of Arizona** Jan 2015-May 2017
Collaborated on Facial Recognition research
- Developed a face recognition system based on local binary patterns to provide graded authentication to users to access mobile apps.
- Member of Technical Staff, Oracle India Private Limited** Jun 2014-Jul 2017
Bengaluru, Karnataka, India
Worked as software developer on the analytics team of Oracle Social Network(OSN).
- Designed and developed a framework to periodically collect and compute analytics on enterprise social network activity.
 - Designed features on the front-end in backbone.js for the webclient team of the same product.
-

OTHER EXPERIENCE

Teaching Assistant, University of California, Davis

Sep 2017-Jun 2018/Jan-2022

Davis, California, USA

Handled discussions for undergraduate and graduate courses on computer security, object oriented programming, distributed database systems and programming languages.

ACHIEVEMENTS AND AWARDS

- Awarded GGCS fellowship by the department of Computer Science at UC Davis in 2022.
- Ranked within the top 200 in India at the regional ACM-ICPC contest in 2013.
- Certified Competent Communicator and Advanced Leader Bronze by Toastmasters International.
- Trained and certified by Oracle in J2SE, J2EE and PL/SQL.
